

Grants & sponsorships

AVROBIO is proud to support activities and programs that benefit rare disease communities. We will review grants and sponsorship requests from nonprofit advocacy or professional organizations described in Sections 501(c)(3) of the U.S. Internal Revenue Code and from similarly designated nonprofit / charitable organizations in countries outside the United States.

Requests should seek support for activities related to rare disease or therapeutic areas of interest to AVROBIO, including Fabry disease, Gaucher disease, Pompe disease and cystinosis.

Please submit requests at least 90 days ahead of the proposed program, event, or activity to ensure enough time for internal review and response. Each request should include a copy of the letter or other designation indicating tax-exempt charitable status, and the following details about the program, initiative, or event:

- Title
- Detailed description
- Date
- Location
- Funding request

For more information, please email
grants@avrobio.com.

AVROBIO reserves the right to modify, revise or delete the terms and conditions of its charitable giving program at any time and without notice.
